MT3700 Pressure Transducer Tester Kit

With the introduction of Pressure Transducers there is the need for an easy way to test. This Tester is reasonable in price compared to vehicle data specific scan tools. The concept is simple: a plug in device that can read the signal and test vehicle.

- Reads signal to transducer from vehicle.
 - Vehicle computer to Transducer Check.
 - Send signal to vehicle through tester.
 - Set system off - low PSI.
 - Run cooling fans with mid range PSI 200-250 PSI.
 - Shuts system down when voltage saturates 4.5 volts.
 - Verify signal to transducer is correct and vehicle responds correctly with manual input for all operations.

Testing Unit includes:

Hand Held Unit for Operation Control

MT3701 A/C Thermistor Tester Kit

- Thermistors are found on most late model vehicles.
- The clutch cycle switch or thermostatic switch has been replaced by an evaporator thermistor and sun load sensor.
- These are passive devices that communicate with the vehicle computer.
- The need to test these components and the system operation is required.
- The concept is simple, a in-line plug in device that can read the signal and communicate with the vehicle computer to test operation.
- Most Thermistor or Sun Load sensors fail because the ceramic tip cracks and loses continuity of the circuit or deteriorate over time.
- The tips are not repairable.
- Some evaporator thermistors require 4 to 5 hours to service.

All goods sold hereunder are warranted to be free from defects in material and workmanship and/or conform to applicable specifications, drawings, or blueprints. THESE EXPRESS WARRANTIES ARE IN LIEU OF AND EXCLUDE ALL OTHER WARRANTIES OR REPRESENTATIONS, EXPRESSED OR IMPLIED BY ANY LITERATURE, DATA, OR PERSON. Sellers sole obligation under these warranties shall be to credit or replace any item or part manufactured by Seller and which is proved to be other than as warranted.

Seller shall have the sole right to determine whether such parts shall be repaired or replaced or whether credit shall be issued. No allowance shall be made for any labor charges of Buyer for inspection, installation, or tear down for replacement of parts, adjustments, or repairs. In no event shall Seller be made liable for collateral, consequential, or contingent damages. Our products are not warranted for any time period, any measure of service, or any specific purpose. The use of Santech's products in refrigerants other than R12 or R134a will void all warranties.

If goods are claimed to be other than as warranted, Seller, upon notice promptly given, will either examine the goods at their site or issue shipping instructions for return to Seller (transportation cost paid by Buyer), and if any goods are proved to be other than as warranted, transportation costs (by least expensive method) to and from Seller's plant will be borne by Seller and reimbursement or credit will be made for amounts so expended by Buyer.

Every such claim for breach of the warranties herein contained shall be deemed to be waived by the Buyer unless made in writing within ninety (90) days from the date of shipment of the goods to which claim relates. These warranties shall not extend to any goods or parts thereof which have been subject to abuse or neglect, damage by accident, rendered defective by reason of improper installation, or used for other than the express purpose for which it was designed and built. These warranties shall not apply to any goods or parts made from tools, materials, or parts furnished by the Buyer or acquired from others at his request and/or to his specifications.
