

## PAG OIL

MasterChem™ Enhanced Lubricant was developed by leading industry chemist. This proprietary blended PAG lubricant offers excellent protection against metal wear and moisture absorption for corrosion protection. This product is blended with our MasterChem™ Lubricant Enhancer which provides additional additives to reduce metal wear and clean the condensers internally along with the rest of the system restoring the thermal efficiency of the A/C system. These oils are for R134a only. OEM service and retrofit.

- Improves A/C System Performance
- Improves Compressor Efficiency
- Helps Extend Compressor Life
- Easy to Install
- Increases Thermal Efficiency
- Keeps Moisture Away from Metal
- Compatible with all OEM Refrigerants
- Compatible with Mineral, PAG & Ester Oils
- One Treatment for Life of Compressor/System
- Contains UV Dye for Leak Detection
- 1oz treatment does not require oil removal
- Meets and Exceeds SAE2670 Standards

### Enhanced PAG w/Dye - Single End Capped

Viscosity	8 ounces
46	41-03060
100	41-03061
150	41-03062

12 per case

### Premium PAG w/o Dye - Single End Capped

Viscosity	8 ounces	32 ounces
46	41-03040	41-03043
100	41-03041	41-03044
150	41-03042	41-03045

12 per case

### Premium PAG w/Dye - Single End Capped

Viscosity	8 ounces	32 ounces
46	41-03050	41-03053
100	41-03051	41-03054
150	41-03052	41-03055

12 per case

## UV LED 4" ALUMINUM FLASHLIGHT

**41-01183**

## MOBILE A/C SYSTEM PERFORMANCE ENHANCER

Formulated with MasterProtect®

1 ounce

41-03120

12 per case

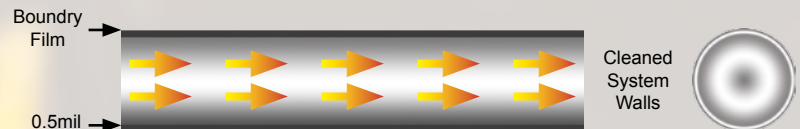

You only need to add 1 ounce to the system without removing the original oil

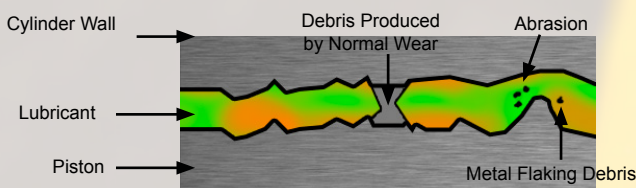

### Untreated Heat Exchanger

### A/C System treated with MasterChem's™ Lubricant Enhancer® Formulated with PasterProtect®

### Untreated A/C System

### A/C System treated with MasterChem's™ Lubricant Enhancer® Formulated with PasterProtect®
