

OEM FIT & FUNCTION:

- Guarantees seamless integration with the vehicle's existing systems for optimal performance.
- Quick connect fittings and oil cooler fittings included where applicable.

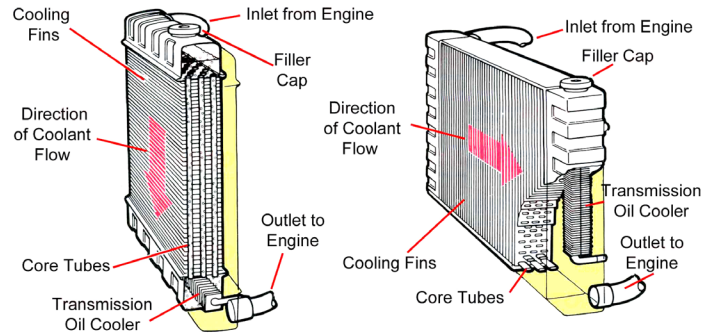

DURABILITY TESTING:

- Ensures long-lasting performance and resilience in diverse operating conditions.

PROTECTIVE PACKAGING:

- Custom-fit padding to safeguards product during shipping, ensuring product arrives in new condition and ready for installation.

The radiator in a car functions as a heat exchanger, dissipating excess heat generated by the engine during operation. As coolant circulates through the engine, it absorbs heat and is then pumped to the radiator where it releases the heat into the surrounding air, maintaining the engine's optimal operating temperature.

POPULAR REPLACEMENT RADIATORS:

24-01522	1994-2000 Cadillac, Chevrolet, GMC
24-02173	1998-2011 Ford, Mazda, Mercury
